## Squirrel Facts

- Squirrels have litters of 3-4.
- Squirrels can eat their weight in seed during one week.
- A squirrel's front teeth grows 6 inches per year and wear down by eating and gnawing.
- Squirrels can jump up to 6 feet and straight across at least 8 feet.
- Squirrels can run as fast as 20mph.
- Peak activity time for squirrels during mild weather is the first two hours after sunrise, and in winter, around noon.

### Want to Learn More?

Ask a store employee to play you the "Squirrel Lovers Segment" of "Bird Man Mel's In Your Own Backyard DVD", or go to [www.birdmanmel.com](http://www.birdmanmel.com). You'll also find these and

more great books as part of our Squirrel Lovers Product Section. Whether you're looking for beginner facts on enjoying Squirrels, or want to learn more about specific species, we have books you'll enjoy!

**Want More Information** on Enjoying Squirrels in Your Yard? Ask any of our friendly, knowledgeable staff.

## Tips On Enjoying Squirrels In Your Backyard!

There are over 365 species of squirrels in seven families. They include the tree squirrel, ground squirrel, flying squirrel, and many squirrel-like mammals such as the gopher, ground hog, and prairie dog. It is the largest group of living mammals on earth.

Across the United States, the squirrels that most often frequent backyards include: gray, brown, fox and red squirrels.

An adult squirrel normally lives alone, but will in severe cold share its nest with other squirrels to conserve body heat. Once the temperature rises, the guests will be on their way.

In the summer, squirrels are most active two to three hours after sunrise, and then they rest in the afternoon, resuming activity again two hours before sunset. A squirrel will retire to its nest well before dark and rarely leave the nest in the dark. In the winter, a squirrel will complete activities between dawn and midday and remain around the nest until the next day.

# Squirrel Feeders

Squirrels are the most active in late winter when mating season begins. Males will chase females and chase off other suitors. This ritual of chasing occurs through the trees at top speed, while performing some of the most breathtaking acrobatics imaginable. Providing feeders for squirrels allows you to witness these acrobatics in your backyard. Enjoy the show!!

## "Squirrel Spinner"™

Squirrel's weight causes the spinner to rotate, swing & spin. Mount on a tree, post, or fence away from bird feeders and...watch the fun begin!

SEWF2021

## "Munch n' View"

Treat your furry friends while protecting their peanuts & other treats you feed, from the elements and marauding jays.

SEWF2150

## "Chain Feeder"

Screw the hook into a ear of corn and hang over a limb or on a hook.

SEWF2031

SEWF2020

## "Chair & Table"

The original design on which squirrels can actually sit on the chair and eat the corn off the table. This feeder is the ultimate in squirrel dining.

## "Peanuts in Shell in Yellow"

Metal powder coated cylinder to feed whole peanuts in the shell to squirrels, jays and others.

# FUN to Watch and Helps Keep Squirrels Away From Birdfeeders

## "Squirrel - a - Whirl"™

Squirrels love it! Squirrel's weight causes the feeder to rotate. It swings and spins... as the hungry acrobats grab a bite to eat. Attach an ear of corn, fruit, or peanut butter and watch the fun begin!

SEWF2160

## "See Saw Teeter Feeder"

The unique "teeter-totter" design of this squirrel "See Saw" feeder gives hours of pleasure to the young at heart squirrels in your yard.

SEWF2023

## "Stalk Feeder"

Food for a "Crowd" of furry friends. The Stalk Feeder holds 12 ears at a time. This feeder can easily hang from a tree limb, roof, yard crane, etc.

SEWF2010

## "Squirrel Throne"

This feeder holds the "Corn on the Cob" so tight that the squirrels can just pull the kernels off the cob.

SESC2030C

## "Squirrel - in - a - Jar"

This you've got to see! Treat your furry friends while protecting their peanuts from the elements and marauding jays. You'll enjoy the view of... "Fur in a Jar."

SESCS412

# SQUNGEE™

SESQUNGEE

The Squngee Bungee Cord is a squirrel feeder that holds two ears of corn. It's a great gift for those who like feeding the squirrels or for folks looking for a way to distract squirrels and reduce their time at the birdfeeder. A small bell rings when a squirrel jumps on the feeder. When humans and cats hear the bell they can go to the window and enjoy the show!

## "Duet Dinner"

Playmate squirrels can enjoy dining together year round. Our unique sheltered, double capacity feeder protects them as they share a nutritious meal of "Corn on the Cob."

SEWF2070

## "Squirrel Only Feeder"

The hinged lid and solid plexiglas front on this feeder keeps the birds away. Squirrels soon learn to open and close the lid in order to get to the peanuts & other treats inside.

SESC1038C

## "Flying Trapeze"

For hours of entertainment watch squirrels' acrobatic antics as they fly through the air with the greatest ease, munching a snack of "Corn on the Cob" on the Flying Trapeze.

SEWF2022

## "Spin - a - Cob"

Have fun watching squirrels try and get the 4 ears of spinning corn.
